Georgetown post

#. 2 EXCISE [redacted] December 8, 1977

Mr. Mc Coy,

EMBASSY OF THE UNITED STATES OF AMERICA

DEC 15 1977

GEORGETOWN

804

On march 2, 1977 my son Darrell Rudisill left San Francisco, California for New York, on a 10 day mission. By the trickery hands of Jim Jones he was sent to the jungles of Georgetown Guyana South America along with several other people. [redacted] had been gone 90 days before I knew his location. I received a form letter from him every two months with the same contents. It told what to say, + when to say it. My son along with others are working more than 12 hours a day, seven days a week for the whims of Jim Jones with little, + sometimes no food. Darrell wants to come home, but is afraid to talk.

I have a prepaid ticket ready to send my son, when you get in contact with him.

I could go on and on telling you about the things that are happening in the jungle.

Mr. Mc Coy please get in touch with my son Darrell personally + give him the enclosed letter privately.

I am enclosing a snapshot of him + information for you to identify him. your help is very much appreciated. May God Bless you

Sincerely
